FEMA-4022-VT
FEMA-4043-VT
FEMA-4066-VT

Narratives

Disaster Damage:

Tropical Storm Irene and the other flooding events of 2011 and 2012 had an unprecedented impact on Vermont. Nothing since the Great Flood of 1927 so devastated the state. Damage was severe and widespread. Six Vermonters lost their lives. Fifty thousand homes lost power. More than 3500 homes were damaged or destroyed displacing 1500 families. Transportation and public infrastructure were decimated. Of Vermont's 251 cities and town, 225 reported damage to their municipal infrastructure. In excess of 300 businesses sustained losses and the agricultural impacts included 20,000 acres of flooded farmland, lost crops and livestock. The largest state office complex was overrun by flood waters forcing the evacuation of state employees and clients of Vermont State Hospital. Several state agencies and 1500 workers were displaced. Nonetheless, more work remains to be done. FEMA and SBA data were the primary sources for identifying unmet needs to be addressed by the state's first allocation. At this point in the recovery of Vermont's individuals, households, businesses and communities, much more specific information is available on the remaining needs that are eligible for CDBG-DR funding and cannot be met by other sources. The proposed uses of the second allocation are based on the following:

- More than 60 letters of interest from eligible entities for proposed projects.
 - A public hearing and public comment.
 - DHCD's experience administering CDBG-DR I
 - Ongoing communication with and reports from state agencies, the Irene Recovery Office, disaster case managers, municipalities, long term recovery committees, regional planning commissions, regional development corporations, and housing nonprofits.
 - Need to use and build local capacity to apply and administer CDBG-DR funds in compliance with HUD requirements.
- To this information the State applied the overarching goals of meeting the most pressing needs, maximizing benefits, leveraging other sources and rebuilding stronger and safer. This Action Plan also proposes uses that meet HUD's requirement that the funds be directed to the most impacted counties - Washington, Windsor and Windham. It outlines activities that ensure the primary beneficiaries are low and moderate income populations and can be completed within the required two year timeframe.

Recovery Needs:

The Agency asked HUD to obligate only \$13,232,000 or approximately 74% of the total \$17,932,000 in CDBG-DR2 funds allocated to Vermont at this time. As projects get underway, the Agency will amend this Partial Action Plan and request that HUD obligate the additional funds, thus starting a new two year expenditure timeline for the additional funds requested. This plan proposes activities and a method of distribution based on the following assessment of unmet needs in the areas of housing, economic recovery and infrastructure. The analysis focuses on the needs of low and moderate income persons in the most severely impacted counties. (CDBG-DR II funds may be used to address disaster needs in any county that received

a disaster declaration but HUD requires that no less than 80% of the allocation be used in Washington, Windsor and Windham.) It also considers HUD requirements regarding eligible activities and the two year expenditure period. Sources relied upon for this assessment include more than 60 project proposals submitted to DHCD in response to a request for letters of interest based on remaining needs and CDBG-DR eligibility criteria. This request was distributed widely to municipalities, state and local officials and organizations engaged in recovery efforts, DHCD’s partner agencies, and through the Department’s distribution lists for its ongoing CDBG program, the Vermont Community Development Program. DHCD received indications of interest for approximately \$43 million in projects, - more than twice the \$17.9 million available. CDBG-DR II will be used for longer term recovery and resilience efforts. As noted earlier, existing sources are insufficient to meet the remaining need to relocate and redevelop impacted affordable housing out of floodplains. The most urgent of these projects is a public housing authority property in Brattleboro, which provides 80 units of affordable housing for the elderly and disabled. It was severely damaged by Irene and remains in harm’s way. It is a high priority for the Brattleboro Housing Authority, the community and the State to address this life and safety issue by redeveloping the units outside of the flood hazard area. This plan includes substantial funding (\$5 million) for this critical project. The State was very fortunate in that the other Public Housing Authorities did not suffer any damage as a result of Tropical Storm Irene or the other Storms listed in the Federal Register for this allocation. Based on data collected by its disaster recovery coordinator, the Vermont Agency of Agriculture estimates remaining needs related to agricultural impacts at approximately \$2 million. This Action Plan proposes dedicating \$3 million for business assistance which will include grants for farms.

Activity Description:

EXPENDITURE DEADLINE EXTENSION
Beneficiaries reported under original activity.
Funds will be used to provide the 25% match for the Hazard Mitigation Grant Program total project costs of these properties, impacted by Tropical Storm Irene, to buy them out to clear the land to remain forever green space.
Two Rivers Ottawaquechee Regional Commission (TRORC) will serve as the lead organization to administer the delivery of this program, working through several of the other Regional Planning Commisions to assist in the necessary field work and providing technical assistance to municipalities specific to their respective regions, and to assist in the actual closings with the property owners, municipalities and the Hazard Mitigation Grant Program (HMGP). The State will be working closely with TRORC to provide draft documents, subgrant agreements, duplicaiton of benefit documentation and ongoing technical assistance and oversight monitoring of the program.
Residentail buyouts to assist homeowners that are above income in the non-targeted counties. These funds will provide the 25% match to the Hazard Mitigation Grant Program (HMGP).

Location Description:

Residential properties located in counites other than Washington, Windsor, or Windham counties.

Most Impacted and Distressed Expended	\$0.00	\$0.00

Activity Description:

CDBG-DR2 RD-2 funding, combined with the previous CDBG-DR1 and CDBG-DR2 RD-1 allocation and state general funds through the Vermont Housing and Conservation Board (VHCB) will largely satisfy the remaining unmet needs for buyouts. By making this commitment, the state will maximize participation in the FEMA buyouts and at the same time assist those unable to access FEMA funding. This gives those most affected by flooding a better chance at full recovery and removes properties from danger and reduces future impacts from flooding, thus fostering responsible flood plain management. Funding will be used to assist communities and property owners meet the FEMA required 25% match and support FEMA-denied property buyouts at 75% of the pre-flood assessed property value statewide. In addition, a small portion of these funds will support land restoration once the demo and clearance of the parcels has been completed to provide community green space and/or limited recreational facilities in accordance with the deed restrictions to maintain in perpetuity any buyout property for a use that is compatible with open space, recreational, or wetlands management practices.
